

10U 11 SLOT MODULAR PATCH PANEL ENCLOSURE

General Specifications						
Product Series	Universal Series					
Product Type	Modular Enclosure					
Rack Units	10U					
Colors	ECO/Silver	Black				
Dimensions	Height	17.47"	Width	19.00"	Depth	11.50"
Features	Removable rear door	Houses up to (11) Adapter Panels or Cassettes				
	Side cable entry from top or bottom	24 port LC Adapter Panel				
	Slot labelling 1-11	32 port LC Adapter Panel				
	Up to 528 channel capacity (1056 fiber)	48 port LC Adapter Panel				
	Other product specific Adapter Panels available in a variety of solid or gradient colors					
Application						

The 10U 11 Slot Patch Panel Enclosures were designed to utilize more port availability while representing switch, storage and server equipment at the Central Patching Location (CPL). The manageability, flexibility and density simplifies port identification within the CPL. Adding modular adapter panels or cassettes expands your network and allows for port to port mirroring from the equipment to the CPL. Moves, adds and changes are simplified with each port on the patch panel matching exactly to the equipment ports they represent.
