UNIVERSAL 10U MODULAR ADAPTER PANEL

DCS
DATA CENTER SYSTEMS
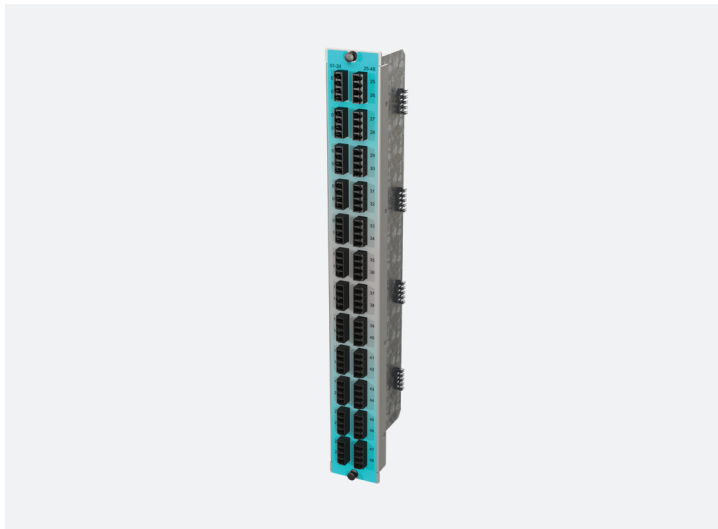

General Specifications

Product Series	Universal Series
Product Type	Adapter Panel
Channel Count	Available in 18, 24, 32, 36, 40, 48, or 64 Channel LC; 16 port MTP
Connector Type	LC

Dimensions	**Height**	16.799″	**Width**	1.525″	**Depth**	0.665″
Colors	ECO/Silver	Black	(Other colors available upon request)			

Application

The 10U Modular Adapter Panels were designed with three key concepts in mind. The manageability, flexibility, and density built into this solution both simplifies port identification within the Central Area Patching Facility (CAP) and mimics the scalability of today's director class switches. Adding modular adapter panels as you expand your network allows for port to port mirroring from the director class switch to the CAP. Moves, adds, and changes become simple and stress free since each port on the patch panel matches exactly to the switch ports, from the slot location to the port number.
